COMMITTED
TO THE CYSTIC FIBROSIS COMMUNITY
AbbVie has a long history of being committed to more than medicine within the cystic fibrosis community. AbbVie has partnered with patients, parents, families, physicians, nurses, and organizations to develop initiatives that help people with cystic fibrosis. We are focused on innovation that starts with families and people living with C.F. We draw on our deep expertise and understanding to identify opportunities to support the CF community.

AbbVie partners and collaborates with peers, universities, clinical experts, governments, and advocacy groups to strive for excellence. AbbVie also offers programs and opportunities for healthcare professionals in support of medical and patient education. By working together, we help to make a positive impact on people’s lives.
CREATING PROGRAMS AND BUILDING PARTNERSHIPS THAT MAKE A DIFFERENCE
PROVIDING SUPPORT AT EVERY STAGE

PROVIDING ONGOING SUPPORT FOR PEOPLE WITH CF* FROM INFANCY THROUGH ADULTHOOD

NUTRITIONAL AND MULTIVITAMIN
Quality nutritional supplements and multivitamins are delivered monthly at no cost.

FINANCIAL
Co-pay assistance reduces financial burdens by eliminating or reducing out-of-pocket expenses†.

EDUCATIONAL
Patients can receive educational emails and brochures about digestion and nutrition.

†Co-pay assistance program is not available to patients receiving prescription reimbursement under any federal, state, or government-funded insurance program (for example, Medicare, Medicaid, TRICARE, Department of Defense or Veteran's Affairs programs) or where prohibited by law. Offer subject to change or discontinuance without notice. Restrictions, including monthly maximums, may apply. This is not health insurance.

**CFCF CareForward is available to patients who have cystic fibrosis and who are currently taking an AbbVie-market product. Certain restrictions apply. Offer valid within USA only; must be a US citizen or lawful permanent resident.
AbbVie has partnered with the Cystic Fibrosis Foundation (CFF)* for many years to raise awareness, fund research, and remind families that they are not alone in this fight. On walk days, AbbVie representatives walk alongside the community, and provide educational materials and product samples.

AbbVie is a premier national sponsor of the CFF’s Great Strides walk, which is the Cystic Fibrosis Foundation’s largest national fundraiser and includes a total of 500 walks throughout the year. AbbVie’s support of Great Strides assists the CFF in funding important services like center and adult care grants, clinical research grants, quality improvement training programs, and other care center network initiatives.

RAISING AWARENESS OF THE UNIQUE NUTRITIONAL NEEDS OF PEOPLE WITH CF

The CFChef website aims to raise awareness of the importance of good nutritional habits and provide a place where families, friends, and caregivers of people with CF can share recipes and get updated nutrition tips and guidance.

In 2014, AbbVie and Cystic Fibrosis Research, Inc. (CFRI)* teamed up to raise awareness of the nutritional needs of people with CF through the CFChef Shares Program. As part of this initiative, people who have been touched by CF submitted almost 300 new recipes, which were reviewed by a registered dietitian and shared with the CF community.

AbbVie has partnered with Medikidz® to create visually appealing comic books that empower young people to learn in a way that they can easily understand. Through this approach, these resources encourage kids and families to think about, talk about, and understand the importance of nutrition and pancreatic enzymes in children with cystic fibrosis.

These comic books are available at no charge within the United States. Please contact a local AbbVie representative to receive a free copy and learn more about this exciting initiative.

The iCAN program is a comprehensive set of tools and resources created to help address challenges in GI health, enzyme adherence, and nutrition. AbbVie developed iCAN in partnership with a multidisciplinary team dedicated to CF care, including CF healthcare providers, patients, and parents. The iCAN program meets the guidelines and standards of the Cystic Fibrosis Foundation’s Education Committee.

Learn more at: www.icanportal.com

Contact an AbbVie representative to learn more about implementing iCAN at your center.
AbbVie recognizes the financial burdens that exist for many CF families. For the past 23 years, AbbVie has awarded the AbbVie CF Scholarship* to young adults with CF as they pursue goals of higher education.

The AbbVie CF Scholarship recognizes exceptional students with CF who demonstrate academic excellence, community involvement, creativity, and the ability to serve as a positive role model for the CF community. Each year, AbbVie recognizes 40 winners, with two students (an undergraduate and a graduate) selected to receive a Thriving Student Scholarship. Since its inception, the program has awarded more than $2.5 million in scholarships.

Learn more at: www.abbviecfscholarship.com

*To be eligible for the scholarship, it is not necessary for applicants to have taken, currently take, or intend to take in the future, any medicine or product marketed by AbbVie.

COMMITTED TO THE CYSTIC FIBROSIS COMMUNITY
AbbVie has partnered with the Boomer Esiason Foundation (BEF)* to help heighten awareness and provide education about cystic fibrosis.

Through BEF, AbbVie is proud to be the sponsor of the Sacks for CF scholarship program. Donations are made for every sack recorded during NFL Monday Night Football games. Sacks for CF funds are awarded annually to 30 college students, based on their academic achievements and adherence to daily CF therapy.

The AbbVie Patient Assistance Foundation believes that people who need AbbVie medicines should be able to get them. We understand the challenges people may face and the importance of taking medication. The foundation provides AbbVie medicines at no cost to people experiencing financial difficulties.
