

# Living with CF

Laynee S.

# Memories of High School

Being a teenager living with Cystic Fibrosis has taught me many life lessons. The most important lesson I've learned is that it's okay to be different! I had always thought it was embarrassing and unfair that I had to do things none of my peers did. But as life went on I grew to realize that there is nothing to be embarrassed about! I've received nothing but support and kindness from my high school class. They taught me that I'm loved unconditionally and I'll forever be grateful for that!

My friends and I at a local coffee shop

Powderpuff game

In 2019, I received the honor of being on a billboard in my hometown Lebanon, Kentucky for the Smoke Free Coalition!

# Playing soccer for the Marion County Lady Knights

I have been apart of the Lady Knights Soccer Team for four years. Playing a sport that requires so much endurance while having CF is very beneficial. The continuous exercise made a huge positive impact on my lung function.
